Brought to you by Wedding Guide of Alaska

Add a creative & personalized touch to your wedding planning with wedding favors, decorations, & accessories you craft yourself! Consult this project guide often - we're adding new craft projects all the time!

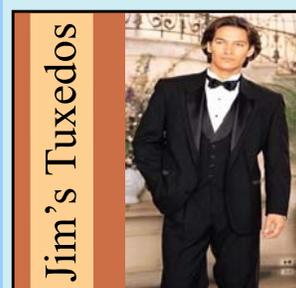

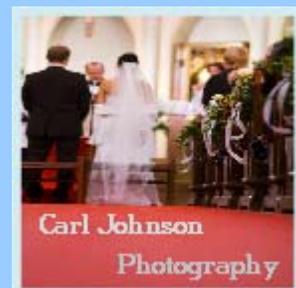

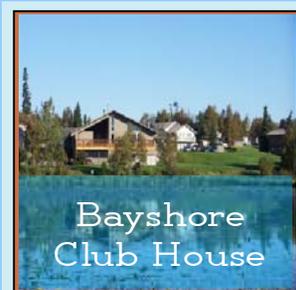

<p><b>Pretty in Pink Centerpiece</b></p>	<div data-bbox="354 464 699 835" data-label="Image"> </div> <p data-bbox="240 871 672 930"><b>Creating this Centerpiece is Easy! Here's How:</b></p> <ol data-bbox="289 968 803 1092" style="list-style-type: none"> <li>1. Start by selecting an attractive clear glass container for the centerpiece. Here, an elevated bowl on a glass pedestal was used, but feel free to use a more standard style of bowl for equally lovely effects.</li> </ol>	<ol data-bbox="836 457 1209 1033" style="list-style-type: none"> <li>2. Fill the container with fresh water.</li> <li>3. Select your floating candles.</li> <li>4. Place the floating candles in the water. To mimic the look in the photo, crowd the candles in the container - for this particular container, four candles was about all it could hold, and we crammed them in! If you prefer a different look, use fewer candles.</li> <li>5. Now its time to add the <i>Pièce de Résistance</i> - the rose petals. It's the rose petals that really cap off the look in this particular centerpiece design and give it that super-romantic, super-soft visual effect. Just place the petals on water and around the candles, and <i>be sure</i> to also sprinkle them on the table, around the centerpiece to finish that wonderful setting!</li> </ol>	<p data-bbox="1252 443 1576 472">Wedding vendors you need</p> <div data-bbox="1263 531 1560 842" data-label="Complex-Block"> <p><b>Evalyn's Floral</b> 561-7322</p> </div> <div data-bbox="1263 900 1560 1190" data-label="Complex-Block"> <p><b>Hawaiian Vacations</b> (907) 261-2700</p> </div> <div data-bbox="1263 1245 1560 1539" data-label="Complex-Block"> <p>Wedding Day Make-up Artist</p> <p><b>CDR Cosmetics</b></p> </div> <p data-bbox="1252 1591 1576 1690">© Copyright 2004-2007 Wedding Guide of Alaska Wedding vendors you need</p>
<p><b>Unity Candles</b></p>	<div data-bbox="240 1182 800 1654" data-label="Image"> <p data-bbox="342 1394 418 1415">Figure A</p> <p data-bbox="630 1394 706 1415">Figure B</p> <p data-bbox="342 1629 418 1650">Figure C</p> <p data-bbox="630 1629 706 1650">Figure D</p> </div>	<p data-bbox="885 1178 987 1199"><b>Materials:</b></p> <ul data-bbox="885 1228 1209 1591" style="list-style-type: none"> <li>Tall white pillar candle</li> <li>Copy of wedding invitation</li> <li>White decorative trim</li> <li>Low-temp glue gun and glue</li> <li>Straight pins with white ball tops</li> <li>Scissors</li> <li>Wire cutters</li> <li>Cloth-covered wire</li> <li>Three purchased white bows, or wire-edged white ribbon to make bows</li> <li>White silk rose or white silk flower embellishments</li> <li>Two tall glass taper candleholders</li> <li>Two white taper candles</li> </ul>	

## UNITY CANDLE INSTRUCTIONS:

1. Cut out the written portion from the wedding invitation in a rectangle or square, depending on the layout. A copy is used rather than an original because invitations are usually printed on heavy card stock that won't readily curve around a candle.
2. Place the invitation copy around the candle, leaving room at the top for the candle to burn without burning the invitation and space at the bottom for embellishments (**figure A**).
3. Use wire cutters to cut the straight pins to a length of about 1/2" below the ball heads (**figure B**).
4. Starting in the upper left corner of the invitation, place the trim across the top edge of the paper, securing it by pushing pins through the trim and paper every 1/2". Go all the way around the invitation. Cut off the trim when it reaches the beginning point. There's no need to use glue: the pins will keep the paper and trim in place (**figure C**).
5. Hot-glue a white silk rose or white silk flower to the center of a purchased wire-edged bow, or make your own looped bow. Hot-glue the bow to the space between the invitation and the bottom edge of the candle. Low-temperature glue is recommended so it won't melt the candle. Hot-glue additional silk flowers around the invitation, if desired (**figure D**).
6. Tie cloth-covered wire around each of the other two bows (or make two more bows from ribbon). Wire a bow around the top of two clear-glass taper candleholders. Place a white taper in each holder (**figure E**). Place the pillar candle between the tapers.

<b>Balloon Centerpieces</b>	<p>The balloon bouquet is the most basic of all balloon centerpieces.</p>  	<p style="text-align: center;"><b>INSTRUCTIONS:</b></p> <ol style="list-style-type: none"> <li><b>1</b> Inflate your balloons correctly. Use a sizer to make them all the same size and don't over inflate. A properly inflated balloon has a teardrop shape, an over inflated balloon looks like a light bulb. It's ok to under inflate if you are going for a round shape, but make sure you keep all the balloons the same size.</li> <li><b>2</b> Use odd numbers. 3, 5, 7 etc.</li> <li><b>3</b> Make sure all the bouquets are the same height by keeping the top balloons the same height. Make one centerpiece and then use it as a guide for all the others. When the top balloons are all the same height it will give the room a uniform look.</li> <li><b>4</b> Don't just use a mylar weight. Dress things up a little. Take 4 smaller balloons and make a weight cover or dress the weight up with some fabric. Party store mylar weights are ok for some things, but you don't want to use them for your tables.</li> <li><b>5</b> Curl the ribbon tails. Easy, just like when you wrap a present and add curling ribbon. It's a step that is too often overlooked, but one that makes a difference.</li> </ol>	<p style="text-align: center;">Other vendors you need</p>
